

Job role	Tokenization Expert with Expertise in Tokenomics and Token Listing
Department	R&D
Location / Working place	Geneva - Switzerland

Key Responsibilities:

1. Tokenomics Development: Design and develop token economic models that align with our business objectives and market dynamics.
2. Token Listing: Lead the process of listing tokens on various exchanges, managing all aspects including compliance, documentation, and liaising with exchange platforms.
3. Market Analysis: Conduct comprehensive market analysis to inform token strategy, including competitive analysis, market trends, and regulatory landscape.
4. Stakeholder Engagement: Collaborate with internal teams and external stakeholders to ensure alignment on token strategy and implementation.
5. Regulatory Compliance: Ensure all tokenization activities comply with relevant regulations and best practices in the industry.
6. Educational Outreach: Provide insights and education to team members and stakeholders about tokenomics and the token listing process.
7. Innovation and Research: Stay abreast of emerging trends and technologies in blockchain and digital assets, applying this knowledge to our tokenization strategies.

Qualifications:

- Bachelor's degree in Finance, Economics, Computer Science, or a related field. Advanced degree is a plus.
- Minimum of 3 years of experience in blockchain technology, with a specific focus on tokenomics and token listing.
- Strong understanding of the blockchain industry, cryptocurrency markets, and related regulatory environments.
- Experience in designing and implementing token economic models.
- Proven track record of successfully listing tokens on major exchanges.
- Excellent analytical, problem-solving, and decision-making skills.
- Strong communication and presentation abilities.
- Ability to work collaboratively in a fast-paced and evolving environment.

We offer:

- Competitive salary and benefits package.
- An innovative and inclusive work environment.
- Opportunities for professional growth and advancement.
- Access to cutting-edge technology and tools.
